MUVV

/ˈmʌv.v.uː/ muv-oo

The music video database. Muvvoo is building the complete record of the art form: every music video ever made, credited, dated and playable, from everywhere and every year. Every submission goes live the moment it clears, keeps a permanent URL of its own, and is put in front of the AltSounds editors.

AltSounds

/ɔːlɪtˈsaʊndz/ alt-sounds

Our sister site, the curated cut. AltSounds is music television the way it used to be: press play and the videos keep coming, one after another, chosen by our editors so you never have to go looking. Two sides of the same coin, made by the same people; approved Muvvoo submissions can feature there. [Visit AltSounds](#)
