In 2014 Hoffos completed permanent public sculpture projects in Grande Prairie and Lethbridge. He has received awards including the Images Grand Prize, 2007, and a Sobey Art Award (2nd prize), 2002.

Laura Hudspith

Laura Hudspith (b. 1990) is a Toronto-based interdisciplinary artist working in sculpture, installation and video. Hudspith's work plays upon associations inherent in commonplace objects and explores authenticity and the allure of simulation through the ersatz mirror. With an interest in merging civic conviction with artistic intent, curious arrangements and seductive visuals give way to inquiry of an equally personal and political nature, both provocative and antidotal. She has exhibited her work and participated in artist residencies in both Canada and the United States, and holds a BFA from Concordia University, Montreal.

Long Distance Call | Marianne R. Williams + Frédéric Bigras-Burrogano

We are Long Distance Call, an artist collective consisting of Frédéric Bigras-Burrogano, a Montreal-born artist and Marianne R. Williams, a cultural heritage information professional and researcher currently based in Fayetteville, Arkansas. LDC's collaborative practice focuses on the use of photography, research, 3D printing and soundscape to investigate the liminalities of documentation, identity, and primary source materials. Concerns with the construction of national narratives through landscape and examining the bias of authorship in documentation and evidence are large areas of focus.

Photographer | Michael Tan

Michael Tan is one half of *Diane + Mike Photography*, and an all-round cool guy. He didn't submit a bio to WRECK CITY, but he deserves one, so we're fabricating it for him. Mike has history as a stage performer, including with Theatre Junction, Vertigo Mystery Theatre, and Alberta Theatre Projects, a background that becomes clear when you watch him as a photographer: he's constantly searching for (and finding) quintessential moments of action + relationship. A "self taught" photographer (presumably with some expert guidance from his partner, Diane Scaman), he captures incredible images that somehow epitomize moments and freeze them for the future. He popped out of the woodwork unsolicited during the first WRECK CITY project, casually captured the most beautiful images imaginable, and we've been delighted to work with him as often as possible ever since.

The WRECK CITY Residency is one of 200 projects **funded through the Canada Council for the Arts' New Chapter program**, developed to fund arts during the 150th anniversary of Canadian confederation. WRECK CITY is one of 3 Calgary-based arts initiatives to be awarded this grant, including Making Treaty 7 Cultural Society, Ghost River Theatre, and Czapno Ensemble (Old Trout Puppet Workshop). These projects were chosen from over 2000 applications across the country. With this \$35M investment, the Council supports the creation and sharing of the arts in communities across Canada.
