Exhibition Info

TIME

OPEN DAILY MARCH 21 - APRIL 5, 12:00-7:00PM

**PLEASE NOTE: THIS EXHIBITION WILL CLOSE AT 5PM ON
SUN, 4/5**

LOCATION

BRIC HOUSE GALLERY

([HTTPS://GOO.GL/MAPS/VX4YR8KCVXHMBBZJ6](https://goo.gl/maps/VX4YR8KCVXHMBBZJ6))

Echo(logies) is the 2026 exhibition of **Data Through Design (DxD)** (<https://datathroughdesign.com/>), an annual data art exhibition featuring works that creatively analyze, interpret, and interrogate data made available in NYC's Open Data Portal. This exhibition is presented by DxD in partnership with **BRIC** and is on display at BRIC House from March 21 through April 5, 2026.

The projects in DxD 2026 work with the bodies of knowledge, or “-logies”, that reverberate through New York City's data. They explore ecosystems and cycles of life expressed in data; the rhythms of growth, decay, renewal, and transformation as they “echo” through data, and the interplay between human and non-human worlds.

This year's theme engages with questions such as: How can the city, and data itself, be understood as ecological and cyclical? How might data be materialized, embodied, or inscribed by natural processes? What accumulates, erodes, regenerates, lingers as traces, or resonates as echoes?

The work in this exhibition makes data felt, witnessed, or transformed—through physicalization, interaction, or by exposing how nature itself records and inscribes change. The art works engage with living systems, natural or urban ecologies, or information ecosystems, and examine materiality and craft, murmurations and flows, entropy and genesis, and the sublime scale of ecological change.

DxD 2026 Artists + Projects:

Trpti Sanghvi, **Turnstile Murmurations**

HaoChe Hung + Tianxing (Vincent) Zhu, **Waste Rhythms: Living Records of NYC Communities**

Becca Ellsworth + Becca Odell, **Desire Paths**

Charlotte Gartenberg + Ivan Himanen, **Linger Loiter**

Karissa Whiting + Elizabeth Costa, **The Oracle of Gotham**

Craig Fahner + al haley, **Wild Lots**

Mark Heller + Mariel Collard Arias, **Landscape Workshop**

Jingrong Zhang, **Metropolitan Cuneiform**

Ian Callender + Karla Rothstein, **HartLine**

Elina Oikonomaki + Lukas Lesina Debiasi, **Urban Data Orchestra: Composing the Hidden Rhythms of the City**

Echo(logies) is organized and curated by the Data Through Design [team](https://datathroughdesign.com/team) (<https://datathroughdesign.com/team>): Julia Bloom, Tereza Chanaki, Rachel Daniell, Jack Darcey, Sara Eichner, Justin Roberts, and Can Sucuoğlu.

Join us for the **[Opening Reception of Echo\(logies\)](https://bricartsmedia.org/event/opening-reception-echologies-presented-by-bric-and-data-through-design/)** (**<https://bricartsmedia.org/event/opening-reception-echologies-presented-by-bric-and-data-through-design/>**) on **Sat, March 21 from 6:30-8:30PM**, as well as an **artist panel** (**<https://bricartsmedia.org/event/bric-and-data-through-design-present-echologies-panel/>**) on **Sun, March 29**.

About Data Through Design (DxD)

Data Through Design (DxD) (<https://datathroughdesign.com/>) is an independent, volunteer-run collective which organizes an annual art exhibition featuring works that creatively analyze, interpret and interrogate data made available on NYC Open Data (<https://opendata.cityofnewyork.us/>), a valuable civic resource aimed at increasing information access and transparency. Each year a different theme is developed to challenge artists to surface hidden stories, patterns and connections in data, to examine its shortcomings, and to question claims to objectivity that data representations project. These novel and artistic creations harness the potential for data to enliven and deepen our understanding of life in the city. Featured projects are created by artists, activists, software engineers, graphic designers, architects, urban technologists, map-makers, and other creative practitioners; all working with the city's open data sets.

About NYC Open Data Week

DxD is part of [NYC Open Data Week \(https://2024.open-data.nyc/\)](https://2024.open-data.nyc/), a week-long series of events and workshops organized by our partners at the [NYC Office of Technology and Innovation's \(OTI\) Office of Data Analytics \(https://www.nyc.gov/content/oti/pages/\)](https://www.nyc.gov/content/oti/pages/) and [BetaNYC \(https://www.beta.nyc/\)](https://www.beta.nyc/). For more information about NYC Open Data Week, including Open Data Week 2026 events and the NYC School of Data community conference, please visit [open-data.nyc \(https://opendataweek.nyc/\)](https://opendataweek.nyc/).

Data Through Design's 2026 exhibition and programs are made possible by made possible by the [New York State Council on the Arts \(https://arts.ny.gov/\)](https://arts.ny.gov/) with the support of the Office of the Governor and the New York State Legislature. The 2026 exhibition is presented in partnership with [BRIC \(https://bricartsmedia.org/\)](https://bricartsmedia.org/). Data Through Design is a 501(c)(3) non-profit organization through [The Fund of the City of New York \(FCNY\) \(https://www.fcny.org/\)](https://www.fcny.org/) partner project program. For more about DxD or to make a donation toward future exhibitions, please visit [datathroughdesign.com/about \(http://datathroughdesign.com/about\)](http://datathroughdesign.com/about).
